ABOUT ABRAHAM STEEL & PIPE FABRICATIONS

Wulguru Group is one of the largest steel fabrication companies in northern Australia. The privately owned, Australian company has a core business of providing innovative engineering solutions across its six business units.

Unrivalled technology, capacity and infrastructure has seen the Wulguru Group position itself as a market leader in steel fabrication and engineering solutions since 1976.

Abraham Steel & Pipe Fabrications, established in 1969, forms part of the Wulguru Group and is recognised as one of the best in its field.

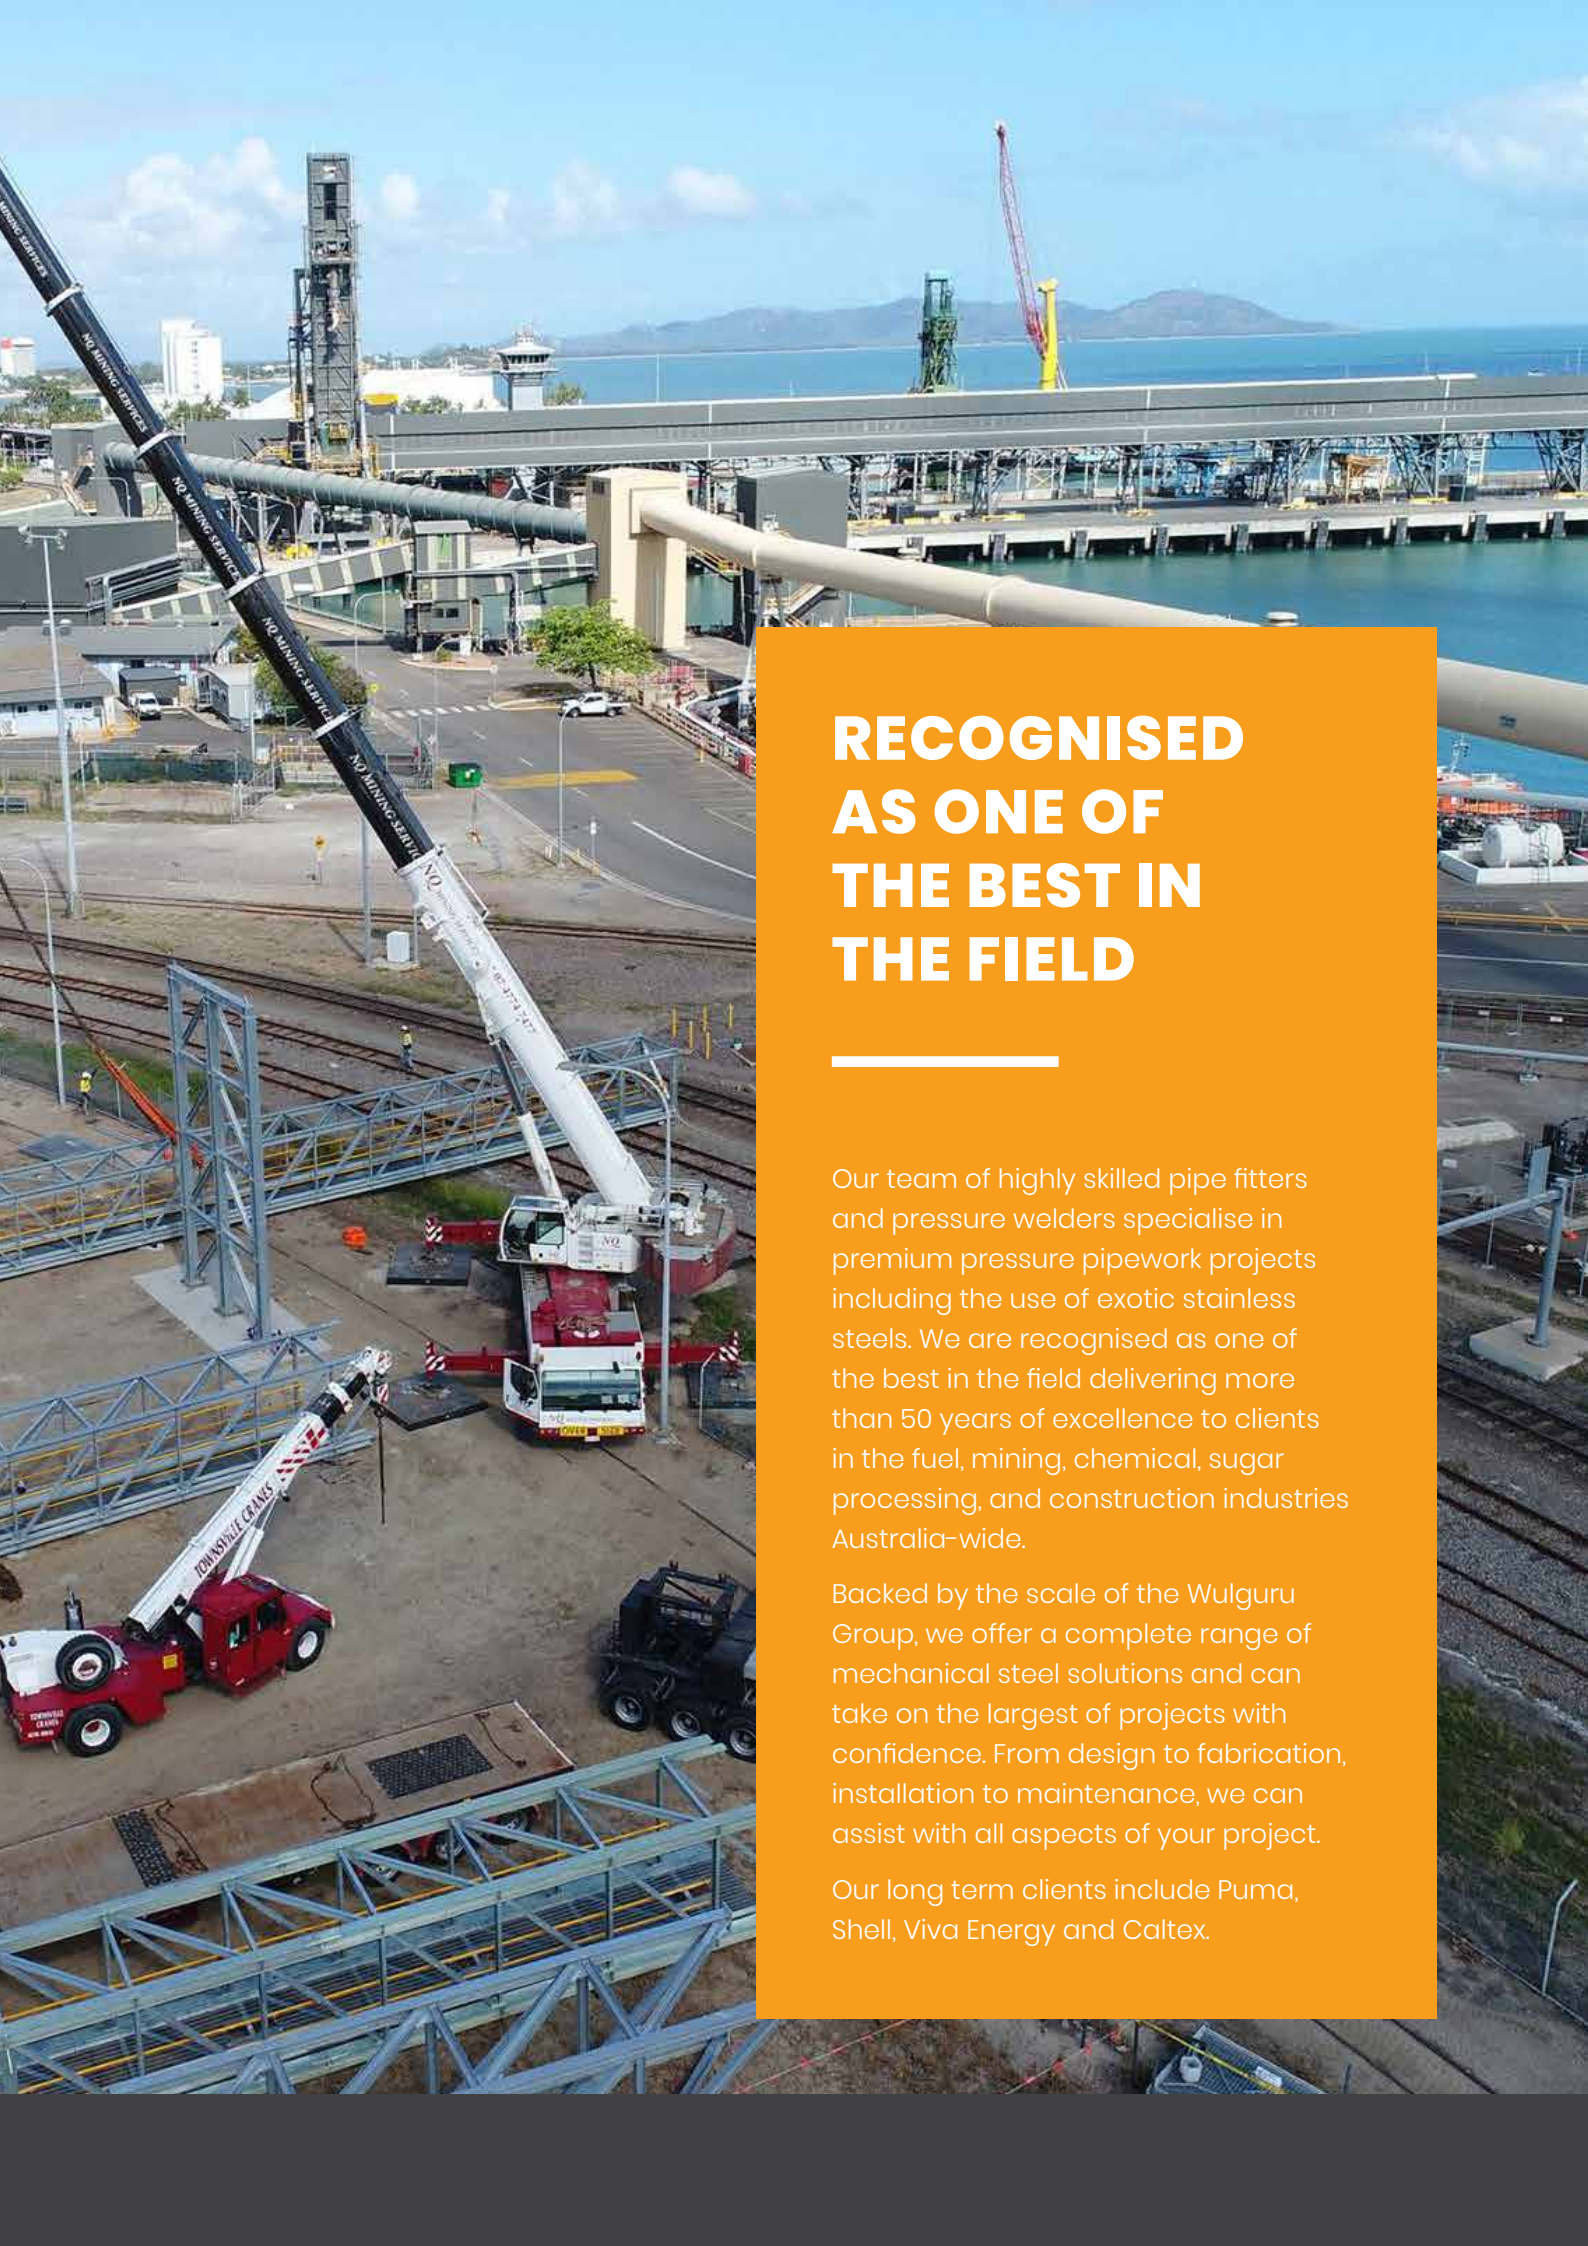

Specialising in pipework and engineering solutions to meet the exacting requirements of the fuel and chemical industries, Abraham Steel & Pipe Fabrications is committed to safety and holds an A grade ISNetworld rating.

As part of the Wulguru Group, Abraham Steel & Pipe Fabrications offers a complete range of services from design to fabrication, installation and transport. Wulguru Group prides itself on exceptional customer service and is committed to delivering quality, onsite, on time.

ABRAHAM

STEEL & PIPE FABRICATIONS

RECOGNISED AS ONE OF THE BEST IN THE FIELD

Our team of highly skilled pipe fitters and pressure welders specialise in premium pressure pipework projects including the use of exotic stainless steels. We are recognised as one of the best in the field delivering more than 50 years of excellence to clients in the fuel, mining, chemical, sugar processing, and construction industries Australia-wide.

Backed by the scale of the Wulguru Group, we offer a complete range of mechanical steel solutions and can take on the largest of projects with confidence. From design to fabrication, installation to maintenance, we can assist with all aspects of your project.

Our long term clients include Puma, Shell, Viva Energy and Caltex.

OUR SPECIALTIES

PRESSURE PIPEWORK

We specialise in premium pressure pipework projects with our pipework and engineering solutions designed to meet the exacting requirements of the fuel and chemical industries.

STRUCTURAL STEEL PROJECTS

We can design, fabricate, install and maintain all of your structural steel projects including storage tanks, frames and walkways.

MECHANICAL STEEL PROJECTS

We offer a complete range of mechanical steel solutions to suit specific industry demands including fuel, chemical and mining.

INSTALLATION AND MAINTENANCE

We can design, manufacture, install, repair, maintain and transport your project.

SKILLED SITE LABOUR

With the backing of the Wulguru Group, Abraham Steel & Pipe Fabrications has access to a large mobile workforce with the ability to scale-up for major projects. We can provide boilermakers, coded pipe welders, fitters, riggers, crane operators and support labour.
